Echelon Academy Admissions Criteria

Application Process

After an initial school visit, the application process consists of four steps:

1. Submit the following along with a completed application form:
 - student's recent report card
 - psychological and educational assessments
 - current IEP
 - parent evaluation form
2. Completed teacher evaluation form sent directly to the school
3. Student classroom visit
4. Informal assessment, if necessary

Admission Criteria

We use a comprehensive approach to gain the best possible understanding of each child from different perspectives. The application process provides the parent and the child, as well as our admissions committee, with an opportunity to ensure that there is a good fit between student/parent expectations and school expectations. A parent and student interview completes the admissions process.

We have a rolling admissions policy; applications are reviewed as they are submitted as long as space is available. After the application process is complete, the registration process begins. The director communicates quickly with parents as each step of the process is completed.
